# Today's Lecture

Why has data become so much in demand?

Why GDPR?

Personal Data in Payroll processing

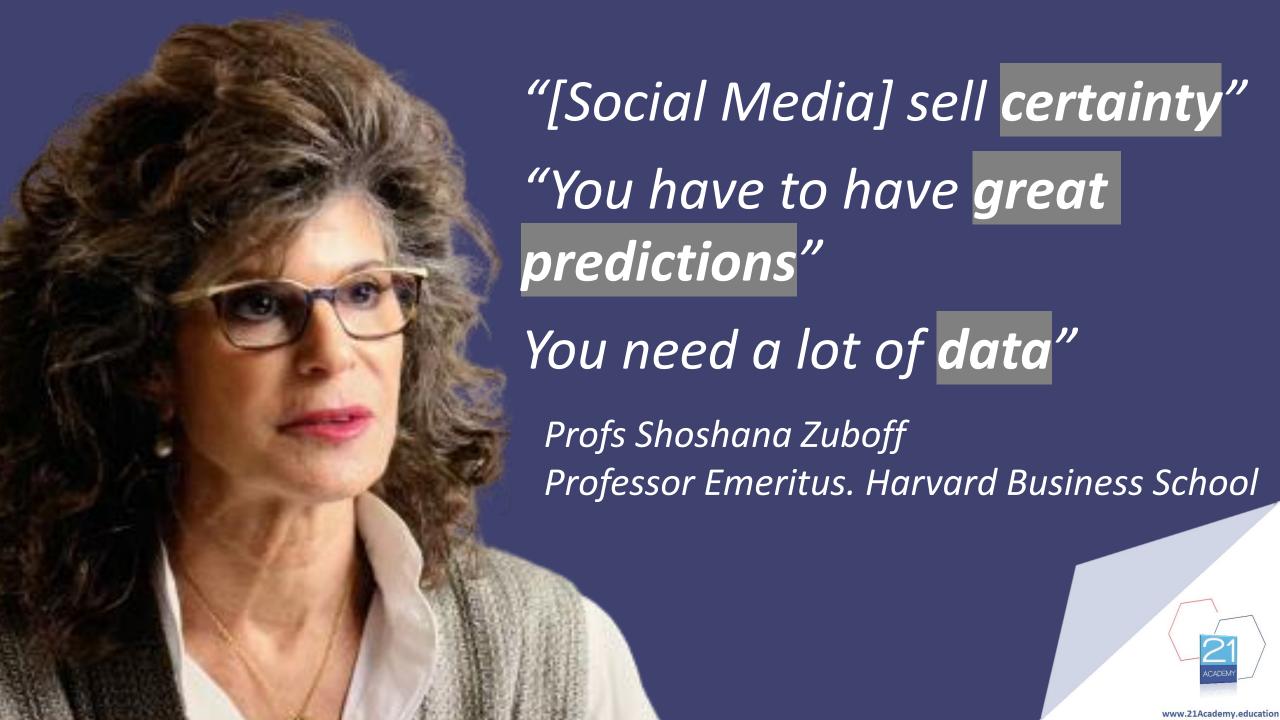

Processing Payroll Data under data privacy legislation

Documentation

The intention of GDPR is to provide a common set of rules across the EU that can meet the changing data protection landscape of today's world and give the adequate protection to individuals - known as "data subjects".

#### **About**

Netflix has been a data-driven company since its inception. Our analytic work arms decision-makers around the company with useful metrics, insights, predictions, and analytic tools so that everyone can be stellar in their function. Partnering closely with business teams in product, content, studio, marketing, and business operations, we perform context-rich analysis to provide insight into every aspect of our business, our partners, and of course our members' experience with Netflix.

In 2014 a Facebook quiz invited users to find out their personality type

The app collected the data of those taking the quiz, but also recorded the public data of their friends

3 Alina ga or pe

About 305,000 people installed the app, but it gathered information on up to 87 million people, according to Facebook

#### Do we need to bother with this law?

Yes.

There are hefty penalties - up to €20 million or 4% of turnover

Various criminal offences for anyone who knowingly or recklessly acquires, discloses or retains personal data without the consent of the data controller (the employer).

# How will it affect organizations?

The law has an impact on all the areas of business not just Payroll.

Needless to say data of employees is affected.

Employers process a lot of personal data about employees for different reasons.

#### **Processing**

Means <u>any</u> operation or set of operations which is performed on personal data or on sets of personal data,

- whether or not by automated means,
- <u>such as</u> collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction;

#### **Data Processing Agreement**

#### Content

- the subject matter of the processing;
- the duration of the processing;
- the nature and purpose of the processing;
- the type of personal data involved;
- the categories of data subject;
- the controller's obligations and rights.

#### **Data Processing Agreement**

- processing only on the controller's documented instructions;
- the duty of confidence;
- appropriate security measures;
- using sub-processors;
- data subjects' rights;
- assisting the controller;
- end-of-contract provisions; and
- audits and inspections.

#### Principles

lawful, fair and transparent specific, explicit and legitimate purpose adequate, relevant and limited to what is necessary accurate & up to date storage limitation integrity and confidentiality

Accountable

# How to comply

Employers now also have a duty to show compliance with these principles.

Best way to show compliance is to have;

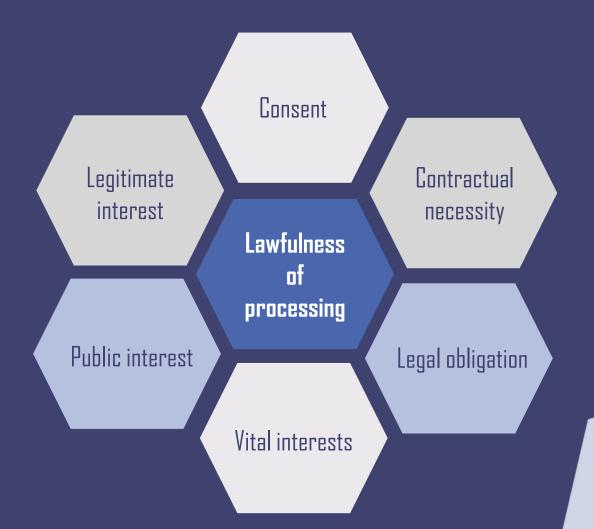

- detailed DP policy (Privacy Standard);
- detailed information to employees;
- good internal processes; and
- data processing agreement/s

#### Legal Grounds

Processing is lawful if based on one of the following legal basis

#### The problem with Consent

Imbalance of power between employer and employee.

You cannot just insert a clause in the contract of employment - an employee would have not much option but to accept.

## The problem with Consent

PWC Business Solutions fined €150,000

- i. has unlawfully processed the personal data of its employees contrary to the provisions of Article 5(1)(a) indent (a) of the GDPR since it used an inappropriate legal basis.
- ii. has processed the personal data of its employees in an unfair and non-transparent manner contrary to the provisions of Article 5(1)(a) indent (b) and (c) of the GDPR giving them the false impression that it was processing their data under the legal basis of consent pursuant to Article 6(1)(a) of the GDPR, while in reality it was processing their data under a different legal basis about which the employees had never been informed.
- iii. although it was responsible in its capacity as the controller, it was not able to demonstrate compliance with Article 5(1) of the GDPR, and that it violated the principle of accountability set out in Article 5(2) of the GDPR by transferring the burden of proof of compliance to the data subjects.

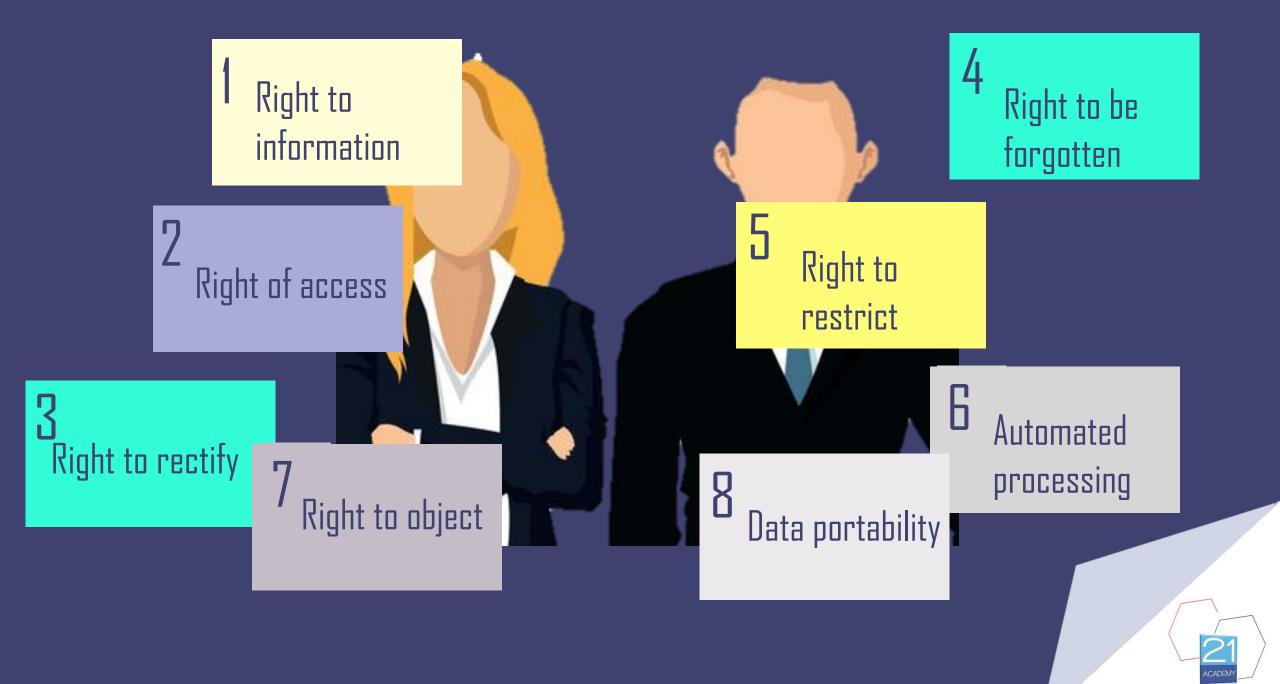

# Relying on consent

Name circumstances when we have to rely on consent...

# **Breaches of security**

Can you name examples of data breach incidents except for hacking?

#### **Breaches of security**

- loss or theft of hard copy notes, USB drives, computers or mobile devices
- sending an email with personal data (eg. pay slip) to the wrong person
- a bulk email using 'to' or 'cc', but where 'bcc' (blind carbon-copy) should have been used
- a disgruntled employee copying a list of contacts for their personal use
- a break-in at the office where personnel files are kept in unlocked storage

# **Breaches of security**

Data subject to be informed without undue delay

IDPC to be notified within 72 hours of breach

Clear internal process should be issued so that everyone knows in which situation a breach needs to be notified and who has responsibility to make those decisions.

#### **Payroll Checklist**
