Question 03

Which best defines binary...

- A) A numbering system based on powers of 10
- B) Data organised in a hierarchical structure
- C) A format representing multimedia content
- D) A system of communication using only two symbols

Question 04

Which of the following is NOT data

A) Text

B) Software

C) Audio

D) Images

Question 05

Which of the following is not a characteristic used to measure audio data?

A) Pressure

B) Frequency

C) Amplitude

D) Duration

Question 06

Which unit of measurement typically marks the starting point for Big Data?

- A) Gigabytes (GB)
- B) Terabytes (TB)
- C) Petabytes (PB)
- D) Exabytes (EB)

Question 07

Which of the following is not typically considered one of the "Vs" of Big Data?

- A) Volume
- B) ariety
- C) Veracity
- D) Vision

Question 08

Which of the following storage devices is typically characterized by its fast access speeds and high performance?

- A) Hard Disk Drive (HDD)
- B) Solid State Drive (SSD)
- C) Optical Disc
- D) Magnetic Tape

Undergraduate Diploma

“The world’s most valuable resource is no longer oil, but data”

- The Economist, May 2017

Why has data become so valuable?

Profiling

“the practice of categorising people and predicting their behaviour according to particular characteristics such as race or age”

- Collins Dictionary

Profiling

Profiling customers into specific segments will enable

- the targeting of each group with offers according to **their needs**
- ensures that each customer gets the **relevant marketing messages** at the right time
- you can boost your sales by creating **customised products and services** for each group.

Profiling

- Demographic
- Geographic
- Psychographic
- Behavioural

Profiling

Profiling - Methods

- Questionnaire
- Survey
- Interviews
- Activity Data

Profiling

You use a voice-activated virtual assistant device to search for information about hiking trails in a specific region. Later in the day, while listening to music on a streaming service, you notice that the suggested playlists include outdoor adventure-themed music and ads for hiking gear.

What's happening?

NETFLIX

amazon
prime video

The logo for Amazon Prime Video, featuring the word "amazon" in a small, dark font above "prime video" in a larger, light blue font. Below the text is the iconic Amazon smile arrow.

HBOmax

Describe Netflix?

About

Netflix has been a **data-driven** company since its inception. Our analytic work arms decision-makers around the company with useful metrics, insights, predictions, and analytic tools so that everyone can be stellar in their function. Partnering closely with business teams in product, content, studio, marketing, and business operations, we perform context-rich analysis to provide insight into every aspect of our business, our partners, and of course our members' experience with Netflix.

VS

Digital Footprint

the trail of data that is left behind when someone uses digital services and devices

Digital Footprint

Services:

- search history
- social media activity
- online purchases
- location data etc.

Digital Footprint

Devices

- smartphones
- fitness trackers
- smart home devices
 - TV
 - Refrigerator
 - AC
 - Google Home/Alexa
 - Hue Lights

Digital Footprint

Digital Footprint

Why does social media need you to be online as much as possible?

Digital Footprint

It wants to get to know you

Digital Footprint

Cambridge
Analytica

1

In 2014 a Facebook quiz invited users to find out their personality type

2

The app collected the data of those taking the quiz, but also recorded the public data of their friends

3

About 305,000 people installed the app, but it gathered information on up to 87 million people, according to Facebook

4

It is claimed at least some of the data was sold to Cambridge Analytica (CA) which used it to psychologically profile voters in the US
