

## Undergraduate Diploma in Occupational Health and Safety Intake October 2024

<b>Assessment Task:</b> One written assignment based on chosen questions	
<b>Qualification:</b> <i>Construction Hazards and Risk Control</i>	<b>Tuition Centre:</b> 21 Academy <b>Licence Number:</b> 2018-017
<b>Level:</b> MQF Level 5	<b>Student Name:</b>
<b>Date:</b>	<b>ID Number:</b>
<b>Assignment Deadline:</b> 8 May 2025 <b>Presentation Delivery:</b> 12 March 2025	
<p><b>Task</b> This assignment aims to assess your understanding of hazards and risks in construction and your ability to apply effective risk control measures. Through the questions provided, you will analyse common construction-related hazards, evaluate risk management strategies, and demonstrate your knowledge of health and safety regulations within the construction industry.</p> <p><b>Presentation:</b> You also must prepare and deliver a 10-minute presentation on your assignment. The presentation will be delivered on the date indicated above.</p> <p><i>You should plan to spend approximately 30 hours researching the assignment question, preparing for, and writing the assignment for assessment. The nominal <b>word count for the assignment is 1,700 words.</b></i></p> <p><i>Please ensure that you refer to 21 Academy's <a href="#">Assignment Guidelines</a> for comprehensive information regarding the submission of your assignment. Additionally, the assignment submission form must be included with your completed work, clearly indicating which question you have chosen to answer by ticking the box next to the question number.</i></p>	
<b>Answer 1 (one) question from the following:</b>	
<p><b>Question 1:</b> Develop a comprehensive Health and Safety Improvement Plan that includes strategies for enhancing safety culture to effectively manage construction site hazards and reduce injury rates.</p> <p><b>Question 2:</b> Develop a detailed report that identifies common hazards present on construction sites, evaluates the associated risks, and proposes effective control measures and safety procedures to mitigate these hazards. Include recommendations for fostering a safety culture among workers.</p> <p><b>Question 3:</b> Design a training program aimed at promoting safety awareness among construction workers. The program should cover the identification of construction site hazards, the importance of personal protective equipment (PPE), and methods for reporting unsafe conditions. Include strategies for fostering a proactive safety culture.</p>	
<b>Pass Mark of total weighted score, including Presentation and Self-Assessment - 50%</b>	<b>Assignment weighted score 60%</b>
